

First Aid Kits

North First Aid Kits

A complete line of first aid kits and refill materials to suit your particular requirements. All kits have a carrying handle and keyhole mounts for wall installation. Your company logo can be permanently applied to the lid to personalize kit. Federal OSHA regulations specify that first aid supplies must be readily available to all employees. If you want your kit to meet your company's specific needs, North specializes in Custom First Aid Kits.

Unitized First Aid Kits

Kits are available in five sizes in steel, and three sizes in plastic. Some sizes also available with a Clear Vu cover for rapid, easy inspection of contents. Filled kits contain a standard assortment of color coded, individually wrapped unit packages. Burn kits and assortments for contractors, fire departments, welders, loggers, Coast Guard, and FAA are also available.

Bulk First Aid Kits

Kits deliver economy without sacrificing quality. Contents offer a variety of components to meet your first aid needs. Rugged steel cabinets are available in four sizes.

First Aid Cabinets

Filled Cabinets contain a balanced assortment of first aid and medical supplies necessary for treatment of most minor injuries, aches and pains. Reorder pads, standard with all kits, help you maintain first aid supply inventory. Cabinets are constructed of sturdy steel and are available in three sizes.

CPR Microshield® Rescue Breather

To reduce exposure to cross-contamination, choose the CPR Microshield® Rescue Breather, a disposable, inexpensive protective barrier between the rescuer and victim during CPR. The Rescue Breather has a one-way valve fitted into a rigged plastic tube surrounded by 25 square inches of clear, medical grade vinyl. To insure that you always have the Rescue Breather on hand in case of emergencies, choose the CPR MicroHolster®, which can be conveniently attached to a belt or epaulets. Or choose the CPR MicroKey®, where it will always be as close as your set of keys. Each package includes directions and diagrams for use.

Bloodborne Pathogens Response Kits
