PENNANT BARRICADE TAPE

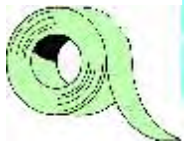

Economical 60' long tapes contain (36) 9"x12"polyethylene pennants. Available in multicolors of red, white, blue, orange, yellow and green; or a highly visible solid red or yellow.

- PBC-01 Multicolor
- PBC-02 Solid Red
- PBC-03 Solid Yellow

Vinyl Footsteps 12" x 9" (Two feet) VF-01

Self-adhesive 4 mil. vinyl. These feet help direct foot traffic patterns or show a person where to stand.

GT-9901
2"x10Yards

GT-9902
3"x10Yards

Material is non-toxic and non-radioactive. These tape pigments absorb and store the elements contained in daylight or artificial light. When it is dark, stored energy is released in the form of green luminescence.

GLO-TAPE
Pressure Sensitive
Ivory Colored Tape

UPVC Fluorescent Tape
Red-Orange Pressure Sensitive

2" x 72 yds. **FT-001**

Made of durable scuff resistant vinyl.

•Long lasting, adhesive backed tape for application in high traffic areas where slippery or dangerous surfaces may cause accidents

Rugged aluminum oxide grit impervious to water, grease, oil, detergents and solvents.

Suggested Uses:

- Stairs & Ladders
- Factories & Repair Facilities
- Truck Beds & Steps
- Ramps & Dock Lifts
- Machine Shops & Shipping Areas
- Service Stations

Saf-Step Tape

Available in Black
NS-01 -2"x60'
NS-02 -4"x60'
NS-03 -6"x24'

It is the responsibility of the user to determine suitability of this product. Seller shall not be liable for any damages relating to use of this product.

Detectable Underground Tape

Conforms to the following specifications:

- NTSB-PSS-73-1
- American Gas Association 72-D-56
- OSHA 1926.956 (c) (1)
- DOT Office of Pipeline Safety USAS B31.8
- GSA Public Buildings Service Guide
- API RP 1109
- APWA Uniform Color Code
- Federal Gas Safety Regulations S 192-321 (e)

- Avoid costly dig-ins to locate buried non-metallic cables and pipelines with Detectable Underground Tape.
- This tape is easily detected with an industrial grade non-ferrous metal detector. While it's highly visible colors make it easy to locate after the dig has begun.
- To install place a length of tape in the excavated ditch above the installation. The tape should be placed 6" to 12" below grade.
- Installation of Detectable Underground Tape should be supervised by a professional of authority concerned with the proper use of this product.

Standard: 3" x 1000'

Tape

THE SIGNS OF A SAFE INDUSTRY

CONSPICUITY TAPE

Federal Law now requires that ALL trailers having an overall width of more than 80" and a gross vehicle weight rating of more than 10,000 lbs. be equipped on the sides and rear with some means for increasing their conspicuity.

With a candle power of 700-1000 our alternating 11" red and 7" white stripes. Conspicuity Tape meets the ASTM D-4956-90 Type V sheeting requirements to comply with this new mandate

- CT-01 2"x10 Yards
- CT-02 2"x50 Yards
- CT-03 "The Kit"

- (50) 18" Red/White Strips
 - (1) Squeegee
 - (4) 1" White Strips for Rear of Trailer
- For Trailers 28' to 57'

SCHOOL BUS CONSPICUITY TAPE

School Bus yellow conspicuity tape meets the National Standards for School Transportation recommendations. This tape has a brightness of 700-1000 candle power intensity. Available in 1" and 2" widths in 50 yard rolls, this pressure sensitive tape resist dirt and grime, as well as common solvents.

- SBC1 1"x50 Yards
- SBC2 2"x50 Yards

BARRICADE TAPE

CAUTION TAPES (yellow background)
